

DAVID EDWARD®

Entourage

Entourage, designed by David Fox, can work well individually or as part of a larger scheme. A simply detailed design, the upholstery is elevated from the floor with a delicate tubular frame. Angled yet considered lines rise in a positive direction from the base of the product, with angled supporting backs swooping around the body for comfort. Entourage can be loosely scattered as an independent sofa with stools or linked in a modular landscape for a more organized solution, either option caters to demands of a compact office or large living areas.

David Fox is an award-winning designer from the UK. He has won 17 international awards from Red Dot, Good Design Award to FX product designer of the Year in 2009. His timeless simplistic approach to design has been welcomed by the A&D community for over a decade and has led to successful collaborations with Tonon, Teknion, Boss Design, Connection, Berenn, Jori, Vado to name but a few. He has also designed the Superkool and Superkool Mini.

37 Entourage

Designed by David Fox

Modular settee and sofa with numerous configurations.
